Information according to Article 33 Para. 1 of the REACH Regulation

Ladies and Gentlemen,

According to Article 33 Para. 1 of the REACH Regulation (EU) No. 1907/2006, all companies are obliged to pass on information to business partners about particularly alarming substances (SVHC) contained in products in a concentration exceeding 0.1 % (weight percent).

In our function as downstream user, we are in constant contact with our suppliers to make sure that the substances contained in our products are either registered or exempt from the mandatory registration. We follow up on the changes of the so-called candidate list (including Appendices XIV and XVII) and are intent on avoiding the use of such substances in our products.

In case a product does contain a substance included in the current candidate list (SVHC) in a concentration exceeding 0.1 weight percent you will find the corresponding information on our delivery note.

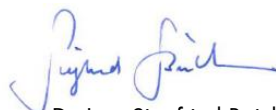

Should you have any questions please do not hesitate to contact us any time.

Best regards,

Adolf Würth GmbH & Co. KG

Frank Wolpert
Head of Product Management, Authorized Signatory
